

# Finally! Gun Friendly Merchant Account That YOU Can Rely on!

As a member of the **NRA and the NASGW**, we understand your business concerns and know how stressful it is to either pay through the nose for credit card processing or use a processor that might stop your service at any moment. With the introduction of Operation Choke Point, lawmakers created yet another way to make it harder for you to do business by giving banks and other financial serves providers the authority to scrutinize your finances.

Many merchant service providers are now unable to provide you with the basic tools you need to run your business. Others that still have the ability to provide you with a basic merchant account, have dramatically increased their rates simply because your business is now considered a “High Risk Business”.

Just like you, we believe in our freedom to bear arms and our 2<sup>nd</sup> amendment. As such, we were able to find and develop new banking partnerships in order to offer our merchants competitive solutions and services that will NEVER stop on them. Today, Century Business Solution is proud to be a member of **NRA** and **NASGW** and a leading provider of credit card processing services to the firearm community.

Our firearms merchants can attest to the quality of our service and pricing, and we know we can bring that to your business as well. No matter whether you accept phone orders, internet orders, or mobile payments, we will reduce your costs, offer stand-up service, and streamline your business procedures.

With our **gun friendly merchant services**, you get:

- Firearm merchant account
- Card Processing at your gun shop/store
