

# Authorize.Net®

Authorize.net is one of the most popular virtual payment gateways; merchants can use it to accept credit card transactions online. Many merchants use Authorize.Net for its large presence in the industry—and, not many think to research alternatives before making a commitment.

eBizCharge, is the best alternative to Authorize.net with not only much better pricing than Authorize.Net, but far more options, ease of use, and flexibility.

## Alternative to Authorize.net

Here are some of the ways that [eBizCharge](#) is a choice alternative to Authorize.Net:

- eBizCharge, can integrate to more online shopping carts than Authorize.Net.
- eBizCharge is much cheaper to use than Authorize.Net gateway, providing the same basic functionality—and an improved user interface—at only a fraction of the cost.
- The gateway has reporting tools that greatly facilitate daily and monthly reporting, as well as an infinite searchable transaction history.
- eBizCharge comes with free, unlimited customer support at any hour of the day.

## Comprehensive list of benefits of eBizCharge:

	Authorize.Net	eBizCharge
<b>Transaction history archived for:</b>	1 ½ years	The entire life of your account
<b>Search past transactions by:</b>	About ten criteria	Over 45 different criteria
<b>Per-transaction gateway fee:</b>	\$0.10-\$0.35 or more	Free (first 5000 transactions every month)
<b>Multiple channel/user reporting:</b>	No	Yes
<b>Online shopping cart security settings:</b>	No	Yes
<b>Free app for mobile devices and trade shows:</b>	No	Yes
<b>Option to email receipts directly to customers:</b>	No	Yes
<b>Customizable daily batch time:</b>	No	Yes

Authorize.Net users are subjected to:

- Higher interchange (base) rates than necessary for lack of adequate back-end coding
- Flat rates instead of individual rates based on card types accepted
- Only a year and a half of searchable transaction history
- A lack of easy reporting features and tools available elsewhere
- Unnecessarily high gateway fees

In addition to acting as a payment gateway, you can use eBizCharge to sort transactions by channel or user, [use a mobile eBizCharge app](#) for trade shows and other on-the-go transactions, [utilize eBizCharge as a shopping cart add-on](#), and run completely customizable reports very easily.

As an alternative to Authorize.Net, eBizCharge is the gateway that can combine the ease of use of [Authorize.Net](#) with higher transaction security and improved costs for your business.
